SHAKTI

SHAKTI

Shayna Boddin was born to a wealthy family from Chicago. Her parents sadly disappeared as they were traveling by train through the mountains of Central Asia. She was sent to live in a boarding school.

The administrators of her school called her a troublemaker. Shayna graduated at age 18, emotionally scarred by the harsh ways of her lonely upbringing. She left school determined to discover a different way of raising children that would encourage and empower them.

Shayna remembered hearing her parents speak of a wise old Sage. They told her of a mystical Banyan Grove- a grove of trees whose roots and limbs spread so far that an entire city could live underneath it, wherein lived an all-knowing Sage. She was certain that this sage could help her understand the secrets of being a powerful human. So, she travelled to Asia and disappeared into the Banyan Groves in pursuit of his teachings.

What happened on her journey remains a secret to this day. Upon her return she adopted the superhero name of Shakti and created the SHAKTI Academy. At the S.uper H.ero A.cademy for K.nowledge, T.raining and I.ntegrity, (S.H.A.K.T.I.), her lessons are focused on developing a hero's BODY, MIND, HEART and COMMUNITY. Having powers of compassion, integrity and great strength of character, she dedicates her life to the development of the Superhero that is within all children. So great are her powers that she is sought out by Superheroes all over the world. So wonderful are her teachings that ordinary boys and girls, with dedication, determination and practice, can attain Superhero status. When Shakti is not working at the Academy, she volunteers her time as a nurse's aid at the local Children's Hospital.
